

## TECHNICAL SPECIFICATION

| PARAMETERS                           | ASGA24BMAA                          |
|--------------------------------------|-------------------------------------|
|                                      | AOGA24BMAA                          |
| BEE STAR RATING                      | 3                                   |
| Tonnage                              | 2.0                                 |
| Power Supply                         | 10-50-230                           |
| Running Current                      | 8.1                                 |
| Standard Cooling at 100% Capacity    | 7,050                               |
| Power Consumption at 100% Capacity   | 1850                                |
| Rated ISEER                          | 3.81                                |
| Electricity Consumption per Annum    | 1432                                |
| Moisture Removal                     | 1.92                                |
| Indoor Airflow Speed Control Levels  | 6                                   |
| Indoor Airflow Volume -Powerful      | 1450                                |
| Indoor Airflow Distance              | 15                                  |
| Indoor Unit Dimensions HxWxD         | 330 x 1100 x 250                    |
| Indoor Unit Net Weight               | 15.0                                |
| Outdoor Unit Dimensions HxWxD        | 755 x 963 x 385                     |
| Outdoor Unit Net Weight              | 51.3                                |
| Indoor Noise Level-Quiet             | 44                                  |
| Connection Pipe (Gas /Liquid)        | 15.88/6.35                          |
| Pipe Length Min~Max (Precharged)     | 3..15(5)                            |
| Max Height Difference                | 10                                  |
| Ambient Operating Temperature Range  | 18 <sup>0</sup> C~52 <sup>0</sup> C |
| Operating Voltage Range              | 195V~265V                           |
| Refrigerant Type                     | R32                                 |
| Compressor Type                      | Hyper Tropical Rotary               |
| Evaporator & Condenser COIL Material | Copper                              |
